

Bring your enthusiasm and passion for ecology and contribute to exciting projects that help shape our environment

We have an exciting opportunity for an enthusiastic and talented professional who is ready to take the next step in their career as an Ecologist. By joining our high-performing Ecology team in Hamilton you will gain hands on experience in a thriving and supportive workplace.

As an Ecologist, you will be working on a broad range of challenging and rewarding projects. This role has a mix of office-based responsibilities and field work, which will see you visit a range of interesting field sites. Time away from the Hamilton office will sometimes be required.

Boffa Miskell is a leading New Zealand professional services consultancy, that is focused on better outcomes for our environment. We are entirely employee-owned and growing, with an increasingly diverse portfolio of clients and projects. We offer a supportive, flexible and collaborative working environment and value having an inclusive and diverse workplace. We offer ongoing opportunities for professional and personal development to ensure that our people can excel and grow.

Check out some of the projects and activities we're involved in by visiting our website or LinkedIn page.

If this sounds like your next career move, we're looking forward to hearing from you.

 To apply, please email your CV to:
joinus@boffamiskell.co.nz

 Closing date:
Friday 16 October 2020

Please note, we like to consider applications as they are received, so encourage you to get in touch with us as soon as possible.

We're looking for someone with

Postgraduate qualifications in Ecology or a closely related field

At least three years' ecological/ environmental consulting experience

Sound knowledge of, and practical field experience working in New Zealand ecosystems, and with New Zealand biota

Proficiency and experience in ecological methodologies, data collection and analysis

Excellent attention to detail in the observation and recording of field data

An understanding of the ecological aspects of resource management

Demonstrated experience preparing technical reports, ecological assessments and management plans

Excellent interpersonal skills, including being an effective and confident communicator with colleagues, contractors and clients

An ability to effectively prioritise, allocate and manage time and resources, working as part of a team, as well as independently when required

An understanding of risk management principles and their application (including Health and Safety best practice)

A current and full Drivers Licence
